

PLACEMENT OF BATTERY PACK CUSHION

TASK

Assemble a large foam cushion onto the housing of mobile phones.

CHALLENGE

- In some cases the placement needs to be done into a recessed area, which is not always precisely defined.
- The size of the foam pad and the porous nature of the foam material make it difficult to peel.

SOLUTION

- Model 1515
- Customized chuck
- Customized nest
- Rewind reel

FEATURES & BENEFITS

- The Model 1515 is a compact, cost-effective solution within a small footprint.
- AccuPlace's patented technology ensures a repeatable and accurate placement.
