

Application Study

PLACEMENT OF BATTERY PACK LABEL

TASK

Place preprinted battery pack labels onto the back of the mobile phone battery.

CHALLENGE

- In most cases, the label must be placed into a recessed area on the battery.

SOLUTION

- Model 1515
- Customized chuck
- Customized nest
- Benchtop configuration for semi-automatic operation
- Rewind reel

FEATURES & BENEFITS

- Although fairly simple, this task does require consistently accurate placement into a recessed area.
- The model 1515 is a compact, cost-effective solution meeting the customer's tolerance requirements of ± 0.005 inches.
- The bench top platform consisting of a base with feet, built-in power supply, and 2-hand control provides a simple cost-effective solution that captures the quality benefits of automation.
